8. 把尾箱和拉杆套上〈注意：要先把尾摆臂前一个孔剪掉，然后把拉杆装进尾摆臂第二个孔位〉
Install the tail box and push link. (Remarks: Scissor the front hole of the tail control arm firstly, then insert the push link into the second the hole.)
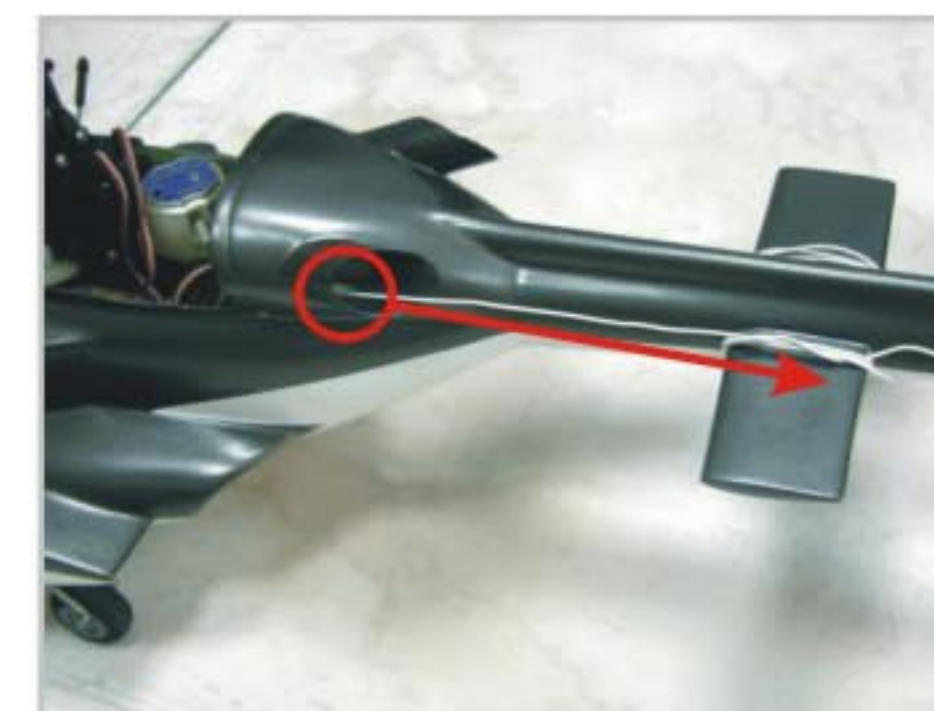

9. 用十字螺丝刀锁住
Lock them by crossing screwdriver.

10. 把飞机电池架四个孔位对住机壳四个孔位〈注意：先用手钻把机壳四个孔位钻大到2mm〉
Please Aim at the four holes of battery hanger to the four holes of cabin. (Remarks: Widen the holes of cabin to 2mm by hand drill.)

11. 用十字螺丝套上介子装进电池架，再用螺母锁紧螺丝（螺丝：2*25，4个）
Insert the crossing screws covered with penetron into battery hanger, then lock the screws by nut. (Screw: 2*25, 4pcs)

12. 把接收机天线从机壳后面孔位拉出来绕在平尾上
Pull out the receiver antenna from the back hole of cabin, then enlace them on the edge tail.

13. 用螺母锁紧
Lock tightly by nut.

14. 把座舱用自攻螺丝装好在机壳头罩上，然后把机壳头罩套上（螺丝：1.4*5，4个）
Fix the engine room on the canopy by self-threading screws, then cover the canopy (Screw: 1.4*5)

15. 用自攻螺丝锁住机壳头罩（螺丝：1.4*5，6个）〈注意：在钮螺丝之前先钻好1mm的孔位，再锁螺丝〉
Lock the cabin by self-threading screws (Screw: 1.4*5, 6pcs) (Remarks: Drill 1mm holes before locking the screws.)

16. 把机壳尾巴套上
Cover the tail boom of cabin.

17. 用自攻螺丝锁住（螺丝：1.4*5，3个）
Lock by self-threading screws (Screw: 1.4*5, 3pcs)

18. 把垂尾用自攻螺丝装在机壳尾巴上（螺丝：2*10，2个）
Fix the vertical tail on the tail of cabin by self-threading screws. (Screw: 2*10, 2pcs)

19. 把飞机主转旋头钮下
Rive off the center hub set of helicopter

20. 把机壳盖子装上，用自攻螺丝锁上（螺丝：1.4*5，4个）
Install the lid of cabin, then lock them by self-dreading screws (Screw: 1.4*5, 4pcs)

21. 机壳盖子锁好以后就把主转旋头装上锁住。
Inset the center hub set after tightly locking the lid of cabin, then lock it.

EK4-0057

658*204.5*132mm

EK4-0055

667*216.5*131.5mm

EK4-0052

587.5*183*118mm

EK4-0050

586*190*118mm

1. 把机壳平尾用AB胶粘上
   glue the edge tail of cabin with AB glue.

2. 把轮子套上起落架，用轮锁锁住
   Hitch the wheel to the undercarriage, then lock them.

3. 把前起落架装上机壳头罩下部，用自攻螺丝和压片锁住（螺丝：2*10，2个；压片：2*10mm，1个）〈注意：钮住压片时要先用手钻钻好1.5的孔位〉
   Insert the undercarriage(front) into the nether of canopy, then lock them by self-threading screws and flat sheet. (Screw: 2*10, 2pcs; Flat sheet: 2* 10mm, 1pcs) (Remarks: Drill 1.5mm hole by hand drill before locking the flat sheet.)

4. 把后起落架装上
   Install the back undercarriage.

5. 用自攻螺丝和压片锁住（螺丝：2*10mm，2个；压片：21*10mm，1个）
   Lock the back undercarriage by self-threading screws and flat sheet. (Screw: 2*10mm, 2pcs; Flat sheet: 21*10mm, 1pcs)

6. 把后起落架左右后轮都锁好
   Lock the left/right & rear wheel of back undercarriage tightly.

7. 把飞机滑撬和尾箱钮下装进机壳〈注意：尾拉杆也要取下〉
   Insert the landing skid and button of tail box. (Remarks: Please remove the tail push link as well.)
